EDUCATION

École Polytechnique — Paris, France
M.Sc.T. in Visual Computing and Artificial Intelligence — Sep 2026 – Sep 2028

Faculty of Technical Sciences, University of Novi Sad — Novi Sad, Serbia
B.Sc. in Control and Computing Engineering (240 ECTS) — Oct 2021 – Jun 2026
Applied Computer Science - Intelligent Systems Module

- Cumulative GPA: **9.55**/**10**
- Bachelor Thesis: *Visual Scene Understanding through Neurosymbolic Reasoning*

Gymnasium "Jovan Jovanovic Zmaj" — Odzaci, Serbia
High School Diploma — Sep 2017 – Jun 2021

- Cumulative GPA: **5.0**/**5.0**

EXPERIENCE

Junior AI Engineer — Belgrade, Serbia
Comtrade System Integration — Jan 2026 – Aug 2026

- Developed backend and integration components for a visual platform used to build and deploy AI voice agents, connecting LLM, STT, and TTS providers and improving Serbian-language speech.
- Built AI assistants for production use cases, including a meeting assistant that follows agendas, answers questions in real time, and RAG workflows over large technical documents and tabular data.

Data Science Intern — Remote, Serbia
Daze Solutions Limited — Dec 2024

- Developed an end-to-end real-estate analytics pipeline in Python, extracting and cleaning PostgreSQL data, engineering domain-specific features, applying K-means clustering, and visualizing resulting market segments.

Research Intern — Petnica, Serbia
Petnica Science Center — Apr 2019 – Sep 2020

- Conducted mentored biology and chemistry research covering experimental design, analysis, and scientific reporting.

AWARDS AND SCHOLARSHIPS

École Polytechnique Excellence Scholarship, École Polytechnique Foundation — 2026
Dositeja Scholarship for Academic Excellence, Fund for Young Talents of the Republic of Serbia — 2025
Don Walker Scholarship, Magna International — 2022 – 2025
Student Scholarship, Ministry of Education, Republic of Serbia — 2022 – 2024
Award for Excellence, Municipality of Odzaci — 2022 – 2025

PROJECTS & ACTIVITIES

Visual Scene Understanding through Neurosymbolic Reasoning (Bachelor Thesis) — 2025 – 2026
Federated Actor Learning — Feb 2026
AI Nation Hackathon – Reputeo & Yandex — Nov 2025
AIBG V4.0 Hackathon — May 2024

SKILLS

ML/AI: Python, Pandas, NumPy, scikit-learn, PyTorch, Transformers, RAG, Azure AI
Computer Vision: OpenCV, YOLOv8, SAM, MiDaS, OCR, CLIP, Stable Diffusion
Software: SQL/PostgreSQL, C#, C++, Java, JavaScript/TypeScript, Git, Docker, Linux
Frameworks: FastAPI, ASP.NET Core, Spring Boot, Angular
Languages: Serbian (Native), English (TOEFL iBT: 100/120)
